

UNIVERSITI Putra Malaysia (UPM) offers students an edge in their career when they opt for the International Collaborative Dual/Joint Postgraduate Programme (UPM-ICP).

This programme can either be a dual or joint degree from top-notch universities that are within the collaboration.

The programme is undoubtedly a great opportunity for students to obtain their master's or PhD from not only UPM, a leading premier university, but also from top foreign universities.

Foreign experience is crucial for the intellectual, academic and personal development of a student. Pursuing a postgraduate programme at UPM provides students with a platform to gain different experiences, learn and develop new skills and build professional linkages.

A dual or joint degrees coupled with a well-rounded personality will give students a competitive advantage in the global market.

UPM currently has 10 programmes under UPM-ICP. The number of programmes is expected to increase to 13 by end of this year. UPM-ICP was initiated in 2009 when the university signed an agreement with the University of Sheffield to offer jointly awarded research degree programmes.

The two types of collaborative programme available in UPM are the Jointly Awarded Research Degree (JARD) and the Dual Degree. For the JARD programme, students will receive a jointly conferred degree upon completion of their studies. The Dual Degree

Foreign partnerships that give you an edge

Universiti Putra Malaysia has 10 programmes under the International Collaborative Dual/Joint Postgraduate Programme (UPM-ICP).

programme offers students two certificates issued by both universities upon completion of their studies.

Below is the list of the UPM-ICP programmes:

- UPM-University of Sheffield Jointly Awarded PhD Degree
- UPM-Université Pierre et Marie Curie Dual PhD Degree

- UPM-Ajou University Dual Master of Science
- UPM-Kyushu Institute of Technology Dual PhD Degree
